

Apeer

A++

Enhance your home with the ultimate energy saving door.

Save money on your energy bills

Apeer

Our mission is to help our customers
lower their energy bills in style!
We set ourselves a big target: to create
an A++ energy efficient door. And we did.
There's no other door that comes close.

Here’s why an Apeer 70mm is nearly **7 times** more thermally resistant than a hollow monocoque door.

In order to demonstrate the superior thermal resistance of Apeer doors compared to our competitors, we engaged the renowned European testing certifier TÜV Rheinland, to conduct rigorous thermal testing. The results unequivocally confirm that all **Apeer 70mm doors** significantly **outperform** alternative options like **hollow monocoque doors** by nearly 7 times.

This substantial enhancement not only ensures a more comfortable and cosy environment but also translates into real savings on your annual heating bills.

Find out more about our Apeer 70mm doors at **apeer.co.uk**

Scan the QR code to see the test reports and all Apeer accreditations.

Apeer 70mm is proven to perform

What makes an Apeer Door an A++ door?

With home heating energy prices skyrocketing, Apeer is a door for the times we're living through. No matter how we heat our homes – gas, electricity or oil – it's costing us all a lot more. At Apeer we can't do anything to bring that cost of energy down, but we can stop precious heat escaping through the biggest opening in your home.

We've put all our energy into saving yours.

Our high strength, reinforced polyurethane core provides excellent insulation against the worst of mother nature's chills.

Our double rebated twin-seal construction is virtually airtight by creating an internal secondary seal.

Along with our 70mm super strong core, glass elements are triple glazed for extra insulation. We even gas-fill them for extra performance.

The unique multi-chamber, steel reinforced construction is an awesome insulator – keeping cold weather outside where it belongs.

A++ doors are an optional upgrade.
To achieve **A++**

Our doors are at their best when the weather is at its worst.

For all you know, it could be blowing a gale outside, lashing rain or hailstones. Maybe all three at once. But you can't hear the wind's howl or feel the temperature drop. That's because you have an Apeer front door. Triple glazed, double rebated and twice the thickness of most others, it effortlessly keeps mother nature's wildest tantrums at bay.

magic WREATH holder

Only available on Apeer Doors, the magic wreath holder uses hidden magnets, meaning you can attach a new wreath to your door in seconds. So you can change your wreath as often as you change your mind.

Here's the magic touch!

The built-in magnets are completely invisible because we set them within the core of the door. All you have to do is attach the magnet kit to your wreath and hey presto. It's really that simple!

Magic Wreath holder is an

Available Door Styles

Please note the wreath position changes depending on the door style and may vary from images shown.

For more information on door knocker and wreath positions please contact Apeer customer services.

Furniture Shown: Architectural Handle, Architectural Push-in Letterplate both shown in Chrome. *Glass design shown with Minster backing glass.

Every effort has been made to reproduce the colour of our Apeer doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to some colour deviation. All Apeer 70mm doors are triple glazed as standard. Please note the grain on the GRP Apeer door does not replicate the grain on the frames as it is a PVC foil. Sidelight and toplight designs will depend on sidelight and toplight final sizes and may vary from design shown. Coloured film in glass designs is not an exact match to the door colour.

Amazing Glazing

Add a personal touch with bespoke, handcrafted glass.

You've chosen the door style and picked a colour that perfectly complements your home. Now for the finishing touch: glass designed by you and handcrafted by our in-house artisan glaziers.
